

Advanced RTU Campaign

Upcoming ARC Webinar - Tuesday February 25th

ARC is partnering with NYSERDA to present a free webinar on "Taking Action Toward Efficient RTUs (and Keeping them Efficient after Installation)" on Tuesday, February 25 at 1pm Eastern. Register at the [link here](#).

Michael Deru from the National Renewable Energy Laboratory (NREL) and Ed Smyth from DNV GL, an independent contractor to NYSERDA, recently presented these details at the ASHRAE Winter Conference. The following information will be shared with ARC and NYSERDA audiences:

- Taking Action Toward Efficient RTUs: ARC Decision Tree and other technical resources to support the replacement/retrofit of inefficient RTUs
- Keeping the "Efficient" Part in Efficient RTUs: Design correctly, Install wisely, Optimize effectively

Please email info@advancedrtu.org with any questions or comments.
